Care and Maintenance

- Vacuum regularly using the lightest suction setting and without a rotating brush. Avoid powerful vacuums that may pull fibres loose. An occasional gentle shake will help maintain the rug's appearance.
- If the rug becomes fully saturated, hang it to dry thoroughly, as PET fibres can retain moisture.
- Spot clean with mild soapy water. Do not bleach or scrub, as this may cause fuzzing or pilling.
- For deeper cleaning, hose down and air dry, preferably in sunlight.
- Do not machine wash or tumble dry.
- Prolonged exposure to moisture or humidity may cause mould and mildew growth. Ensure the rug is completely dry before use or storage.
